TECHSTACKS

OBJECTIVES

Web Developer with full-stack development capabilities and competitive experience in designing effective user interfaces, code testing, debugging and reverse engineering, and business process optimization. Knowledge in application of the stages of system development life cycle and scrum software development framework ensures systematic project development and prompt project schedule.

EDUCATION

Bachelor of Science in Information Technology, 2018
Web Development
Kings College of the Philippines,
Pico, La Trinidad, Benguet 2601

EXPERIENCE

Computer Programmer I, 02/2020 to present
Benguet Provincial Government,
La Trinidad, Benguet 2601

- Develop information systems to upgrade the institution's public service and streamline its processes.
- Formulate optimal and enhanced business process flow.
- Develop and act as administrator for Benguet provincial website
- Debug and optimize existing information systems.

Malware Analyst, 08/2018 to 02/2019
Trend Micro Incorporated,
Rockwell Business Center, Ortigas, Pasig 1605

- Analyze zero day and existing malware threats.
- Formulate patterns for malware detection, quarantine and removal.
- Advocate safe use of the internet to lessen, if not eliminate, victims of malware and social engineering.
- Filter malicious emails to prevent social engineering attacks such as phishing, scams, and pretexting.
- Research effective measures and procedures to prevent malware propagation and replication.
